

# CRICOS INFORMATION SHEET

# ANK CORP

Our **RTO CRICOS registration package** is available to current domestic registered RTO's that now want to offer training to overseas students. The service provides you the structure to demonstrate compliance in your application and audit whilst navigating the process with timely advice from **ANKCorp Education Advisory Services**. This package is suitable for both a domestic and CRICOS RTO registration. We love to work with all sized businesses, so feel free to contact us to discuss your planned CRICOS RTO.

This RTO registration service is delivered in the following way:

- ✔ After the initial payment is received, we conduct an initial teleconference to **confirm the application and audit process** and document the evidence requirements that will apply to your particular circumstances.
- ✔ We provide you with an **Application Action Plan** that defines all of the application requirements and includes guidance on the development of your application evidence.
- ✔ We supply you with your **quality management system** including RTO policies, procedures and all the forms and tools you will need to administer your learners.
- ✔ We can provide you with numerous documents as examples to help **guide your development work** including example assessment packages, training and assessment strategies, course brochures, business plan, financial plan, student handbook and much more.
- ✔ We also help you source a **compliant student management system** that is AVETMISS compliant cloud based student management software that you will use to manage your enrolments and monitor your operation.

Regardless of the industry you want to provide training in from hair dressing to confined space training, chances are we have supported businesses in your sector in the past.

Generations of the workforce are changing rapidly, there are so many skill shortages in Australia. Providing training and assessment for qualified staff with start closing the deficit we are facing in the labour market.

Compliance and regulators are there to weed out the training providers that do not provide Quality Training and Assessment and more and more these education providers are being closed. This creates the opportunity for quality based and committed providers to enter the market to provide specialised and quality focused training services to help meet the growing demand for skills and filter out.

If you're ready for a free consultation please contact our office on **03 8644 6883** or email **info@ankcorp.com.au** and speak to our specialist advisory team.
